**Gbenga Fagemi - iCode**
Senior software engineer
Lotus Beta Analytics. Nigeria

**Phone:** +234 902 834 1873

**Email :** folakeyz@gmail.com

## PROFILE

Passionate and dedicated Frontend Developer with expertise in React, TypeScript, and Firebase, specializing in building dynamic and user-friendly web and mobile applications. With a solid foundation in Node.js and Express, I am on a journey to become a full-stack developer and mobile developer using React Native. I have hands-on experience with Expo and SPFx crafting seamless user experiences. My portfolio includes developing complex applications such as Lynk, a chat app with SMS authentication, and Fluxio, a sales management platform. A natural educator, I have taught coding and thrive in challenging environments, consistently pursuing growth and excellence in software development.

## WORK EXPERIENCE

### Account Opening - Nova Bank                     2024
Frontend Dev

- Collaborated with Senior Software Developer (iCode) to develop an account opening form for Nova Bank, delivering a seamless and user-friendly experience.
- Played a key role in designing the UI and enhancing the user experience, ensuring an intuitive and efficient onboarding process.

### Landing Page - Lisacot school                     2023
Frontend dev

- Crafted intuitive and aesthetically pleasing layouts using HTML, CSS, and JavaScript frameworks like React.
- Made sure the webpage works smoothly across all major browsers (Chrome, Firefox, Safari, Edge).

## EDUCATION

### Bachelor of Science                     2023 - PRESENT
Computer Science | Open University of Nigeria
**GPA:** 3.8 / 4.0
